

If the Honey Harbour Public School is at the max capacity at today's date, why are you even considering uprooting our school children to make another community benefit ONLY for the word, "numbers"? You will destroy our community over "numbers" for a school that is 1.5 hours away!

I propose you leave our school run at its capacity today; you will gain students from Our Lady of Mercy school's closure; they are many younger children that will make up the difference for those graduating down the road and you deal strictly with Glen Orchard on their own. It is after all, their numbers, that are down in enrolment, not ours. They have access to many schools that are closer in proximity and that will not have the severe repercussions and devastation that you will be doing to our hamlet.
