## **PEDICULOSIS MANAGEMENT**

Trillium Lakelands District School Board believes in supporting parent(s)/guardian(s) in understanding the nature and treatment of pediculosis and its impact on students, their families and school.

The Board recognizes that head lice is not a disease or health issue, but is defined as a societal and community problem which needs to be managed through partnership with parent(s)/guardian(s), students, staff and school community. The treatment and eradication of head lice is ultimately the parent(s) / guardian(s) responsibility.
