Hello,

With the recent announcement of the 'modified' PAR for Our Lady of Mercy School and a decision to be made October 25th, 2016 on the future of Honey Harbour Public School, please be advised that as a businessperson in the region, I am against the closure of both the schools in Honey Harbour as it will have a devastating effect on the families of the Harbour in addition to the the local economy.

Ideally, if the School Boards could work together, the 'co-locating' of the two schools would keep our children in the Harbour, thus avoiding 'bussing' extremely long distances, maintaining our Community focus – the children – and allowing our children to learn where they live.

Thanks and with kind regards,

Lauren Patchett
